

Bruce Professional Career

With EDS Corporation since 1991.

I worked for EDS first at its Department of Energy/Energy Information Administration in Washington DC as an IBM system senior systems engineer on the IBM mainframe computer systems used by DOE/EIA.

My résumé is available on this site.

I joined EDS after fourteen years in the US Air Force and five years at the US House of Representatives' data center in Washington DC and a few years at US Customs Service, all places where I worked on large mainframe computer systems.
